EXPERIENCE

Venn Recruitment | [Website](#)

Remote

Co-Founder & Software Engineer (Part-time)

May 2026 - Present

- Co-founded an early-stage recruitment agency with an international team, leading digital product and technical infrastructure development while contributing to service definition, launch planning, and operational setup.
- Built and continue improving the company platform with Next.js, React, TypeScript, Tailwind CSS, shadcn/ui, 21st.dev, and GSAP, translating brand and recruitment workflows into responsive candidate and employer journeys.
- Built and tested Contact, Submit CV, and Hire Talent workflows with React Hook Form, Zod, Vitest, React Testing Library, and pgTAP; used Supabase PostgreSQL and private Storage with ClickUp task/chat delivery, anti-spam, retry, and retention controls.

Pursue Studio

Remote

Web Developer

Aug 2025 - Apr 2026

- Developed responsive landing pages from Figma and brand direction with Next.js, React, TypeScript, Tailwind CSS, shadcn/ui, and 21st.dev; used React Hook Form and Zod for forms and Vitest with React Testing Library for UI and form behavior testing.
- Built Mimic's breakpoint-aware grid, interactive FAQ/comparison sections, and scroll-driven animations with Next.js, TypeScript, Tailwind CSS, shadcn/ui, and GSAP's ScrollTrigger plugin; optimized assets with next/image and next/font ([Live Site](#) | [GitHub](#)).

Sotupub

Sousse, Tunisia

Software Engineering Intern

Mar 2025 - Aug 2025

- Built Conv-AI, an embeddable SaaS chatbot that acts as an automated sales representative, using Next.js, React, TypeScript, Clerk, Prisma, Neon PostgreSQL, shadcn/ui, and Uploadcare for secure file and image uploads.
- Built a RAG pipeline that ingested business files and URLs, stored and searched vectorized knowledge in DataStax Astra, and passed retrieved context to Gemini through the Google AI SDK for grounded, business-specific answers.
- Implemented lead and support workflows that collected emails, asked business-defined qualification questions, guided prospects to appointment booking, and escalated unresolved conversations through Pusher live chat and Nodemailer alerts; built an admin dashboard with email marketing functionality.

EDUCATION

ISSAT Sousse

Sousse, Tunisia

Research Master's in Intelligent Pervasive Systems - AI & IoT

Expected Jul 2027

ISSAT Sousse

Sousse, Tunisia

Bachelor's in Computer Science - Software Engineering & Information Systems

2022 - 2025

SELECTED PROJECTS

Hotel Operations Dashboard | [React](#), [JavaScript](#), [TanStack Query](#), [Supabase](#) | [Reference Demo](#) | [GitHub](#)

- Completed as a course capstone, building authenticated staff workflows for cabins, bookings, guests, check-ins, and user accounts with React Router; used TanStack Query for cached server state and mutations, Supabase for authentication and data, and Recharts for dashboard analytics.

Hotel Booking Web App | [Next.js](#), [TypeScript](#), [NextAuth](#), [Supabase](#), [Tailwind CSS](#) | [Reference Demo](#) | [GitHub](#)

- Completed as a course capstone, implementing App Router workflows for cabin discovery, date-based reservations, authentication, and booking management using Supabase, React Day Picker, and date-fns.

AI Portfolio | [Next.js](#), [TypeScript](#), [Sanity](#), [Google AI SDK](#), [GSAP](#) | [Live Site](#) | [GitHub](#)

- Integrated Sanity as a headless CMS with live updates, publishing content changes to the deployed portfolio without code changes or redeployment; built a streaming Gemini assistant grounded in structured data, with GSAP and Motion interactions.

ACHIEVEMENT

Winner, Hackwatts 2.0 - GDG on Campus ISSAT Sousse

Dec 2024

- Helped the team earn first place by building its responsive Next.js and TypeScript frontend and contributing Gemini and email API integrations.

TECHNICAL SKILLS

Programming: TypeScript, JavaScript, Python, SQL

Frontend: Next.js, React, Tailwind CSS, GSAP, shadcn/ui, React Hook Form, Zod

Backend & Databases: PostgreSQL, MySQL, Supabase, Prisma, Neon, DataStax Astra, Sanity, Appwrite

AI & Integrations: RAG, Gemini, Google AI SDK, Clerk, Pusher, Nodemailer, Uploadcare, n8n

Testing & Tools: Vitest, React Testing Library, pgTAP, Git, GitHub, Vercel, Figma, 21st.dev, ClickUp

Training: The Ultimate React Course 2024; The Complete JavaScript Course 2024 - Udemy

Languages: Arabic (Native), English (Working proficiency), French (Beginner)
